

**BEST AVAILABLE COPY****REMARKS**

The Applicants respectfully request reconsideration of this application in view of the above amendments and the following remarks.

**Specification**

The Examiner has objected to the abstract and to Fig. 7. Applicants had previously made amendments to overcome the objections in the Response to Office Action mailed on February 2, 2006. Applicants telephoned the Examiner on May 24, 2006 to discuss. The Examiner stated that the objections to the specification in the present Office Action were in there by error and stated that the objections to the specification had been overcome by the amendments Response to Office Action mailed on February 2, 2006.

**Allowable Subject Matter**

Applicants note with appreciation the Examiner's allowance of claims 68-74. These claims are represented herein. Additionally, new dependent claims 80-81 depend from allowed claim 68 and are also believed to be allowable.

Applicants also note with appreciation the Examiner's indication that claims 62-65 and 78 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. New independent claims 82, 87, 90, 95, and 100 respectively correspond to claims 62-65 and 78. These claims, and their dependent claims, are now believed to be in condition for allowance.

**BEST AVAILABLE COPY****35 U.S.C. §102(b) Rejection - Dawson**

These claims have been cancelled herein without prejudice in order to expedite allowance. Accordingly, the rejection is believed to be moot.

**BEST AVAILABLE COPY****Conclusion**

In view of the foregoing, it is believed that all claims now pending patentably define the subject invention over the prior art of record and are in condition for allowance. Applicants respectfully request that the rejections be withdrawn and the claims be allowed at the earliest possible date.

The Examiner is invited to call Brent E. Vecchia at (303) 740-1980 if there remains any issue with allowance of the case.
